

SAN JOAQUIN
— COUNTY —
Greatness grows here.

AIRPORT WAY PRECISE PLAN

KICK-OFF COMMUNITY WORKSHOP

February 12, 2026 | 5:30 pm to 7:00 pm
Cornerstone Community Church, Manteca

THE TEAM

Jeff Levers

Katie DeMaio

Rosanna Southern

AGENDA

1. Goals of today's meeting
2. Overview and Objectives
3. Timeline
4. Existing Conditions
5. Project Website
6. Next steps

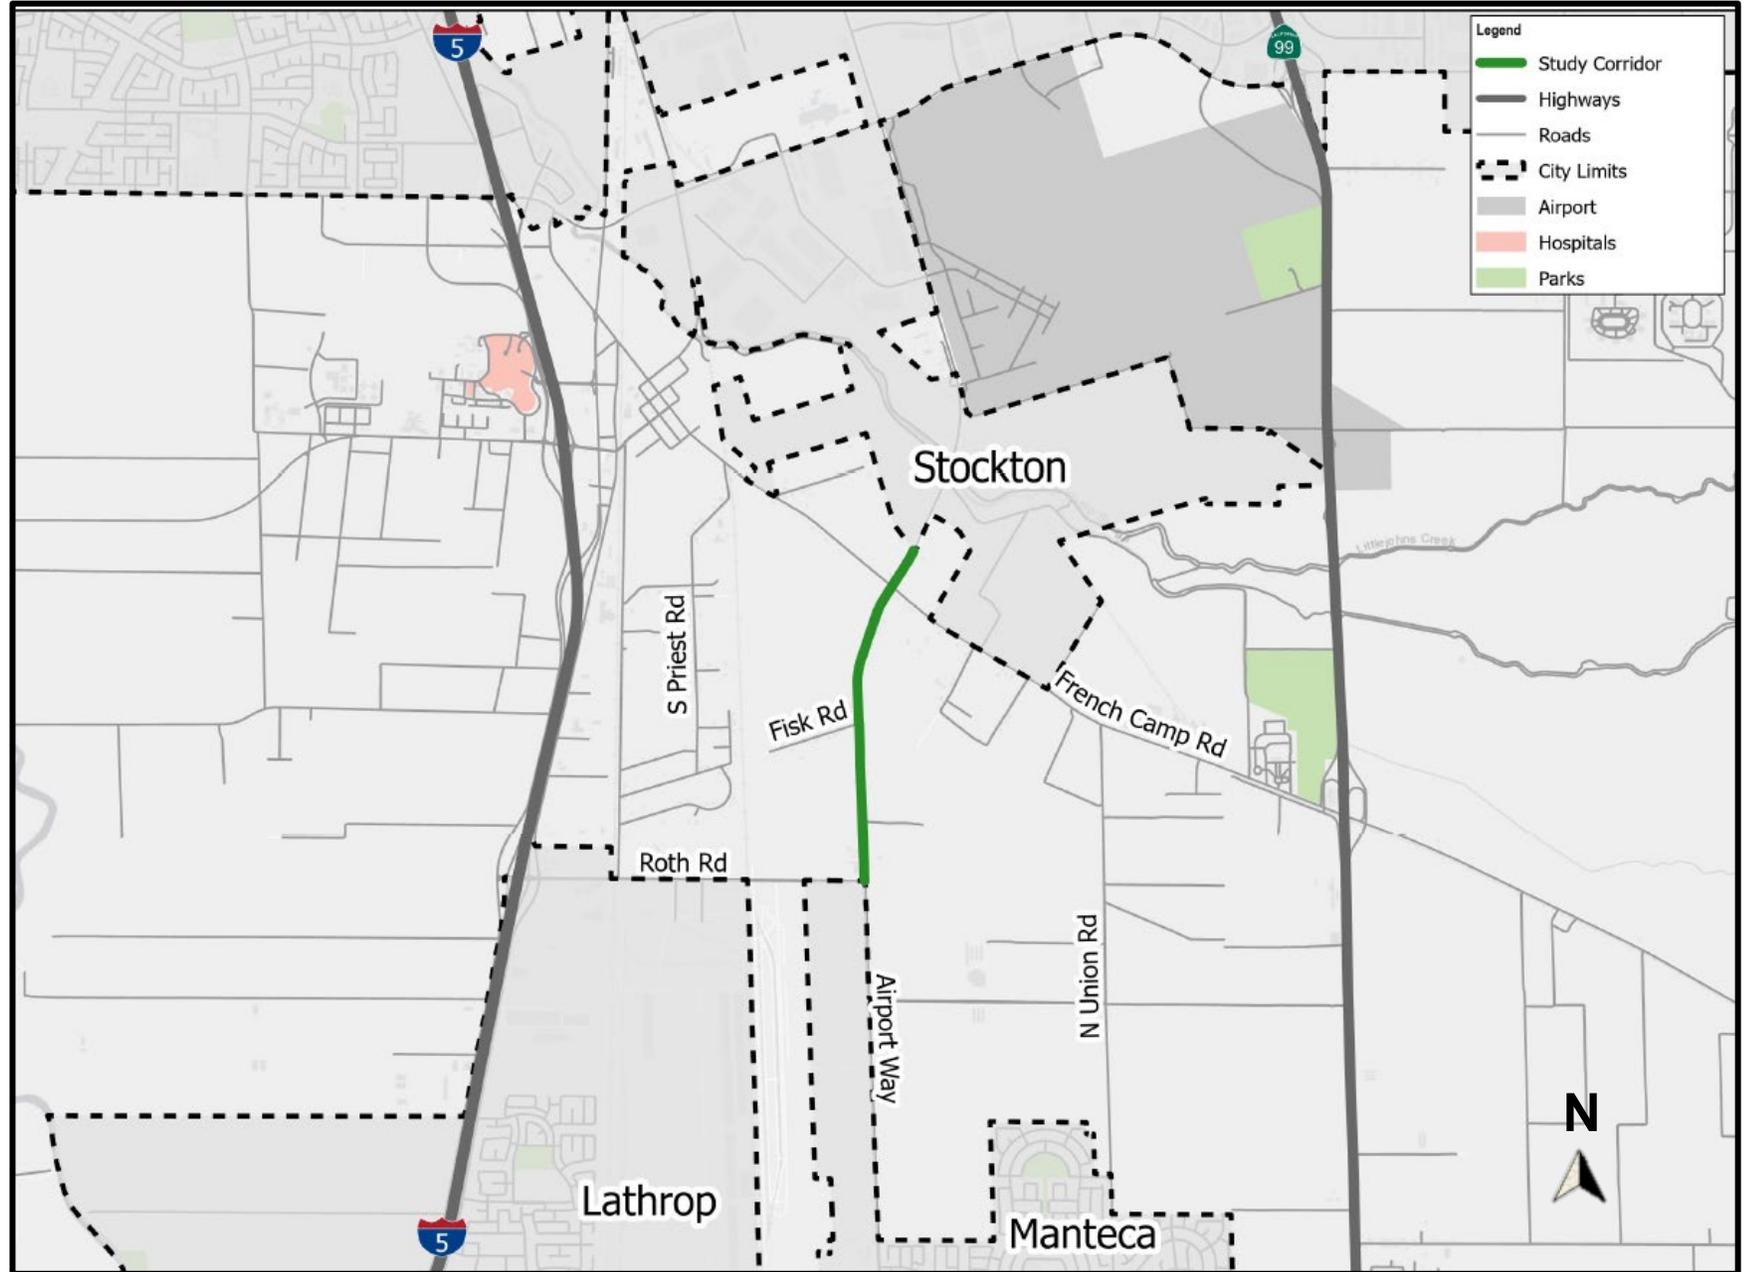

MEETING GOALS

1. Learn about the Airport Way Precise Plan.
2. Share your thoughts and ideas about the area.

PROJECT AREA

Airport Way between
Stockton City limits
north of French Camp
Road and Roth Road

AT A GLANCE

Precise Plan

A precise plan is a standalone planning document that provides standards for development for a certain area. This precise plan will provide improvement recommendations that improve safety along Airport Way and plan for anticipated traffic growth.

DEVELOPMENT OF THE PLAN

- Coordination with adjacent improvements and city planning documents
- Traffic circulation, collision patterns, constraints, and opportunities analysis
- Environmental study
- Design concepts for near-term safety improvements along Airport Way
- Preliminary cost estimates and potential funding sources
- A prioritized project list for near-term and long-term improvements

The Final Plan is scheduled to be released in **Spring 2027**.

PLAN OBJECTIVES

Improve safety for everyone traveling the corridor

Support local and regional **truck movement**

Reduce congestion and **improve traffic flow**

Improve access to homes, jobs, and the airport

Plan for future growth and long-term mobility needs

Outreach

Round 3
Community
Outreach

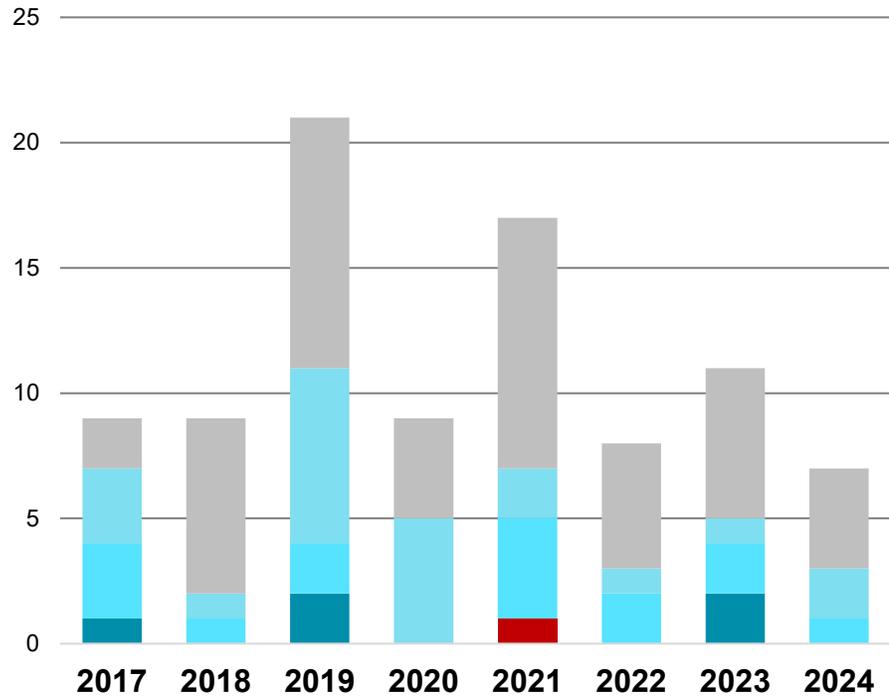

COLLISION ANALYSIS

- 91 collisions over the 8-Year period
- “Hot Spot” at French Camp Road with 48 collisions
- 3 pedestrian and 2 bicycle-related collisions between Fisk Road and Roth Road

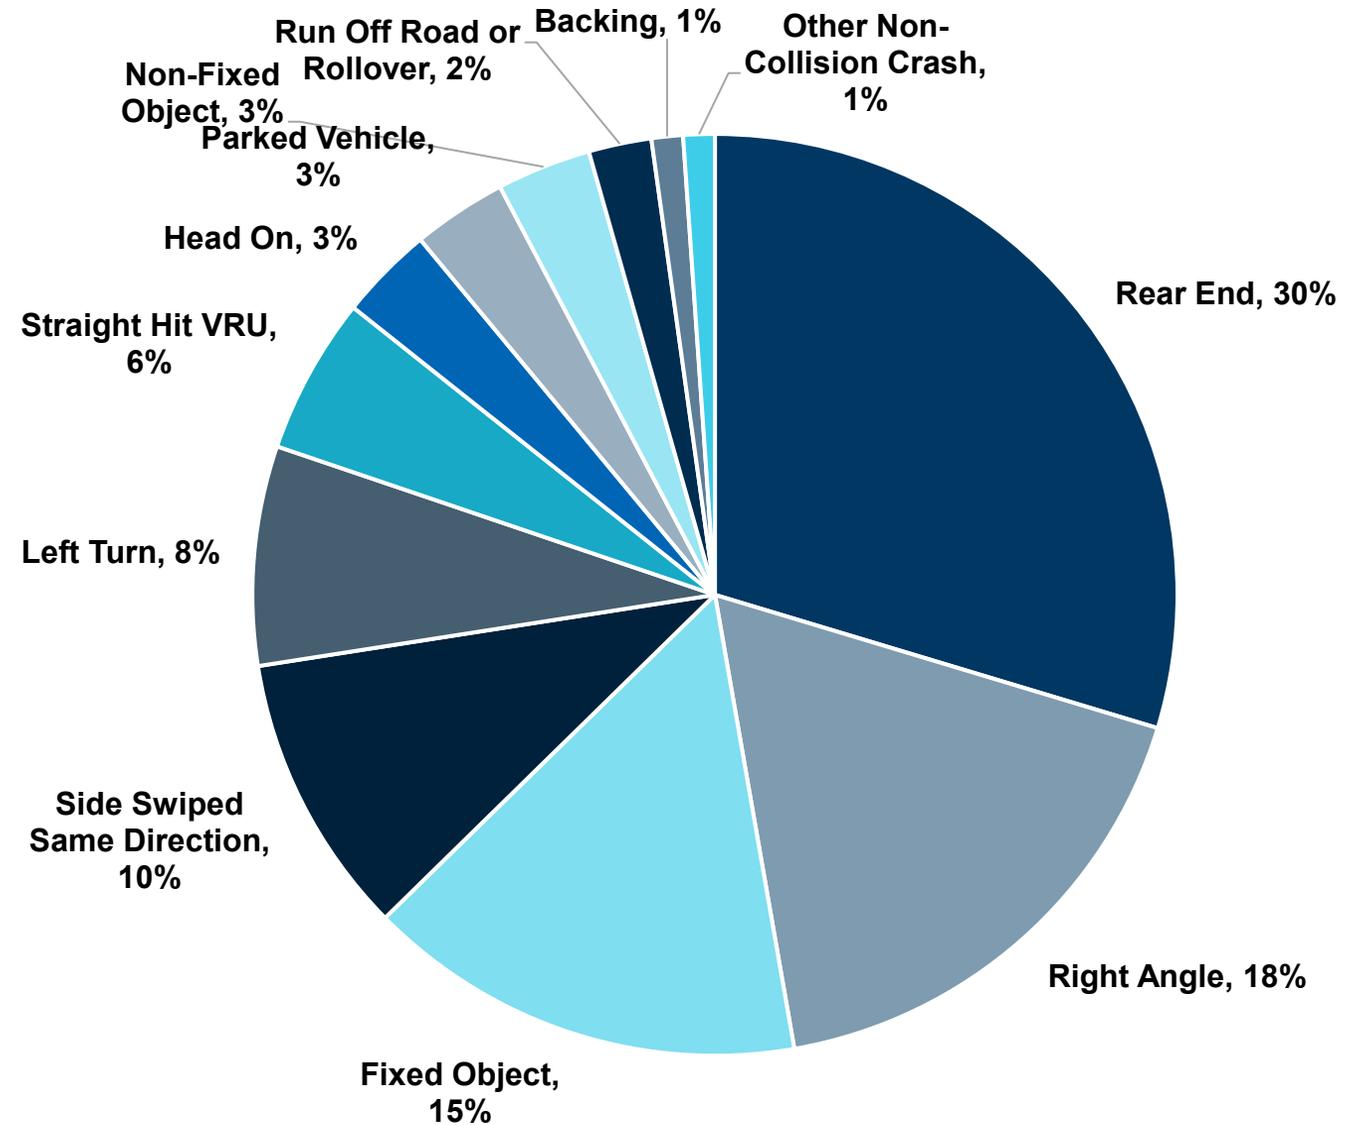

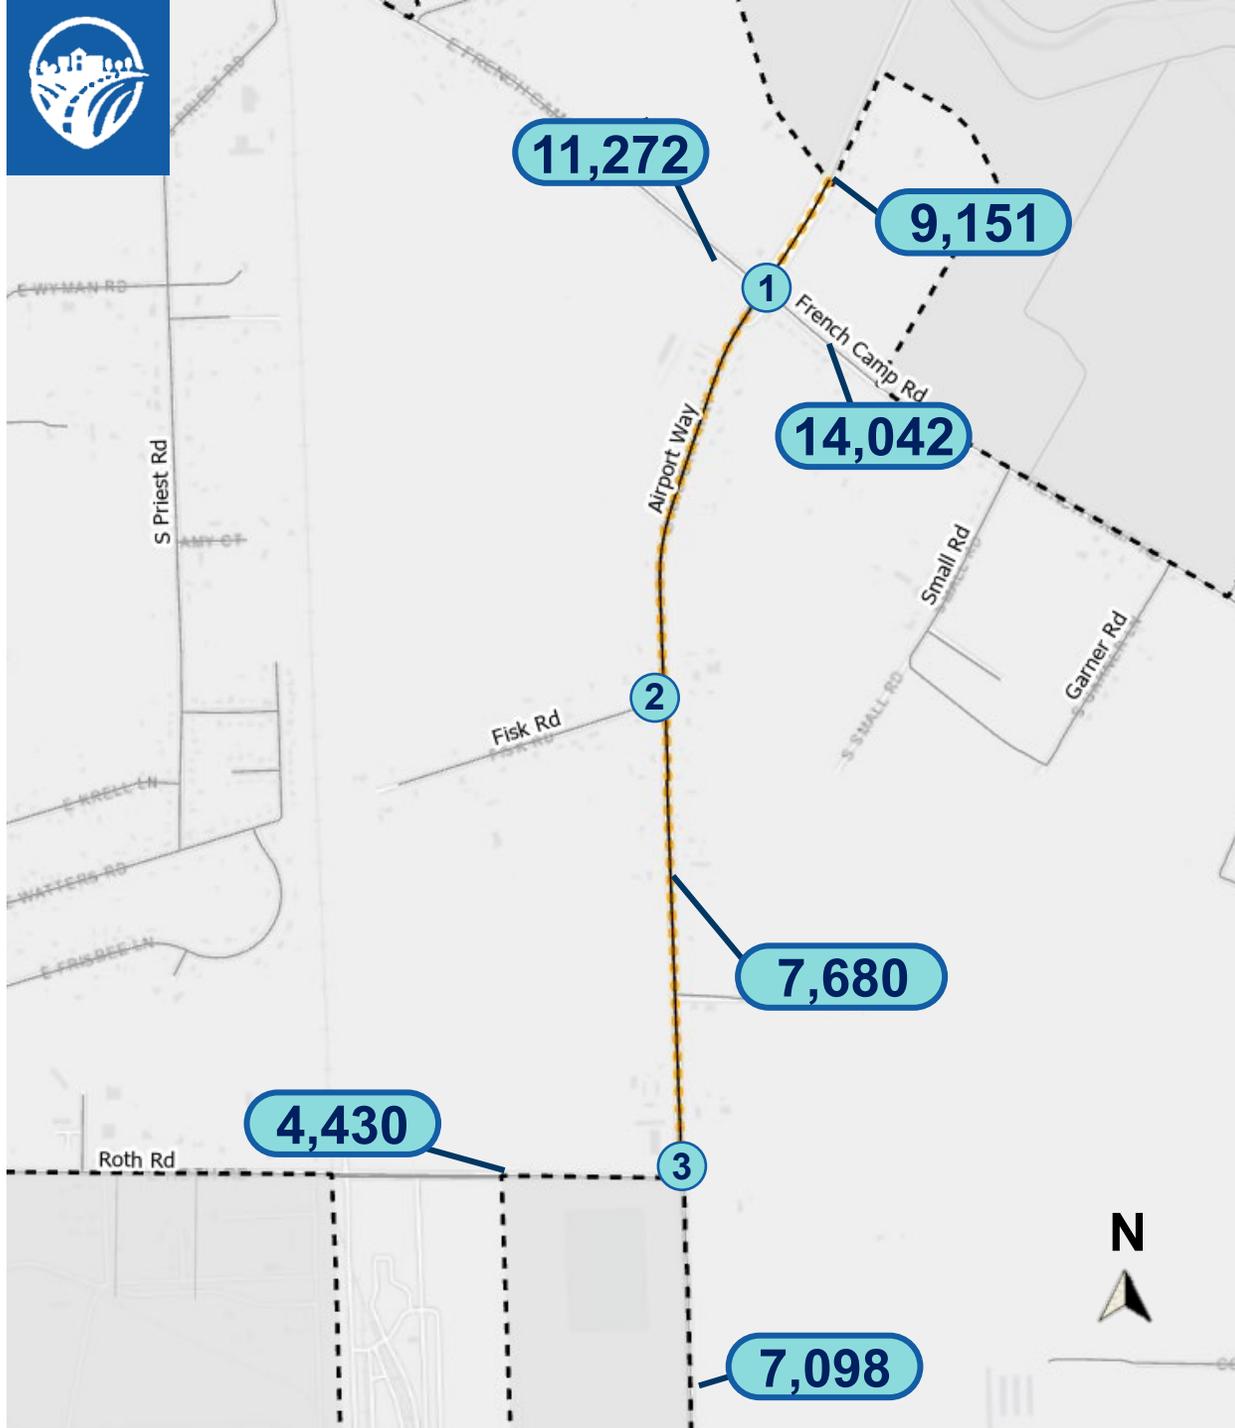

COLLISION ANALYSIS

Collisions by Year by Severity

- (O) Property Damage-Only
- (C) Possible Injury
- (B) Suspected Minor Injury
- (A) Suspected Serious Injury
- (K) Fatal Injury

EXISTING TRAFFIC DATA

- Traffic build-up causes congestion
- The congestion leads to extended travel times
- The Airport Way Precise Plan will improve driver's experience traversing Airport Way to accommodate future growth in traffic

Project Overview

San Joaquin County is developing a comprehensive plan to upgrade Airport Way, a critical truck corridor connecting Stockton, Manteca, and major distribution centers.

Airport Way is a vital transportation corridor connecting Stockton, Manteca, and some of San Joaquin County's largest warehousing and distribution centers. The 1.2-mile section between French Camp Road and Roth Road currently handles heavy truck traffic serving the Union Pacific intermodal facility and surrounding logistics centers.

With planned warehouse expansions projected to more than double truck volumes over the next decade, San Joaquin County is developing the Airport Way Precise Plan to ensure the corridor can safely and efficiently serve the community's needs.

The Final Plan is scheduled to be released in Spring 2027. See "Plan Timeline" for

Upcoming Events

The county will hold 3 in-person engagement events to gather feedback from the community.

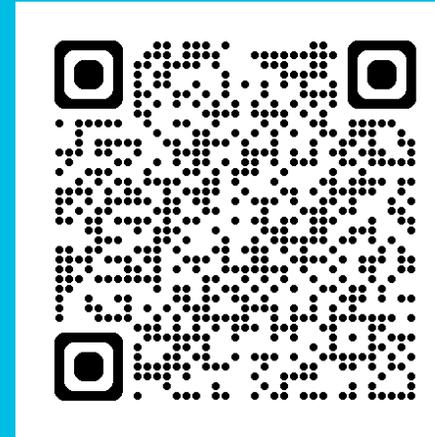

Check below for upcoming events

Workshop 1

Purpose: Introduce the Plan
Thursday, February 12, 2026
5:30 - 7:00 pm
Cornerstone Community Church
10948 S Airport Way
Manteca, CA 95336
RSVP Encouraged (not required)
Drop in at any time!
Spanish translation available upon request, email
AirportWayPlan@sjgov.org by February 1st

Workshop 2

Purpose: Review improvement alternatives

Share Your Input on the Interactive Map!

This plan is being developed with input from the people who use Airport Way every day. Through three community workshops and an interactive online map, you'll help shape solutions that work for our community.

Using the interactive map, you can:

- Explore the corridor and share your input
- Drop a pin to flag problem areas
- View comments from other community members

[View the Interactive Map >](#)

PROVIDE FEEDBACK

With the Interactive Map you can explore the Airport Way Project area and leave your thoughts about driving issues, pedestrian / bike concerns, safety concerns, identify problem areas and more.
