

AIRPORT WAY PRECISE PLAN

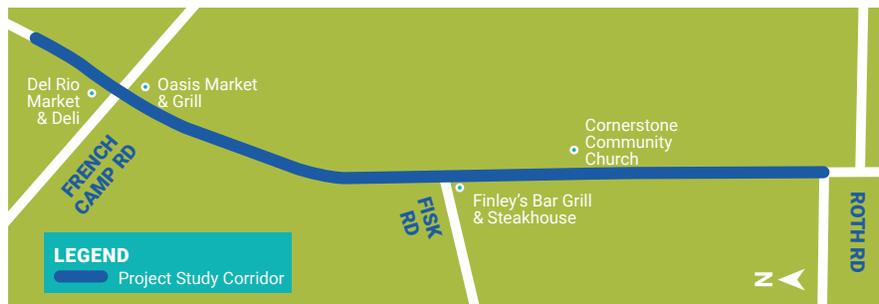

SAN JOAQUIN COUNTY
— COUNTY —
Greatness grows here.

Airport Way is a vital transportation corridor connecting Stockton, Manteca, and some of San Joaquin County's largest warehousing and distribution centers. The 1.5-mile section between French Camp Road and Roth Road currently handles heavy truck traffic serving the Union Pacific intermodal facility and surrounding logistics centers.

With planned warehouse expansions projected to more than double truck volumes over the next decade, San Joaquin County is developing the Airport Way Precise Plan to ensure the corridor can safely and efficiently serve the community's needs.

Plan Timeline

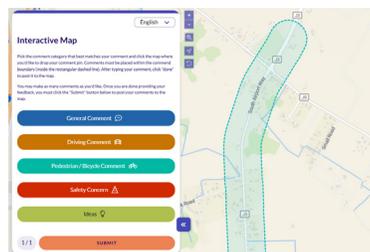

- ✓ **Project Kick-Off**
October 2025
- ✓ **Data Collection**
Fall 2025 – Spring 2026
- ★ **Community Outreach: Workshop #1**
February 2026
- ☆ **Transportation Analysis & Alternatives Development**
Spring – Summer 2026
- ☆ **Community Outreach: Workshop #2**
Summer 2026
- ☆ **Environmental Analysis (CEQA)**
Summer 2026 – Spring 2027
- ☆ **Recommendations & Draft Specific Road Plan**
Fall 2026 – Winter 2027
- ☆ **Community Outreach: Workshop #3**
Winter 2027
- ☆ **Final Plan**
Spring 2027

Plan Objectives

- Improve safety for all people traveling Airport Way
- Support truck movement and regional commerce
- Reduce congestion and enhance traffic flow
- Improve access to homes, jobs, and the airport
- Plan for future growth and mobility needs

How to Stay Involved

- 1 Visit the project website for updates and materials
- 2 Provide feedback through the interactive map

- 3 Attend future workshops
